

Design

The screenshot displays the RapidMiner Studio interface. The top menu bar includes File, Edit, Process, View, Connections, Cloud, Settings, and Extensions. The main workspace shows a process diagram with two operators: 'Retrieve Iris' and 'X-Validation'. The 'X-Validation' operator is configured with 'average performances only' checked, 'number of validations' set to 10, and 'sampling type' set to 'automatic'. The right sidebar shows the 'Parameters' panel for the 'X-Validation' operator, with the same settings as the workspace. The bottom status bar indicates 'To leverage the Wisdom of Crowds, you must be a member of the RapidMiner Community!' and a 'Join the community' button.
